Here's the latest update of greyhounds that have shown strong performance when projected to be among our top 4 ranked runners in a race.

It may be worthwhile to include these runners in your watchlist. Whenever they are scheduled to race, verify whether they appear in our top 4 rankings. If they do, and the market conditions seem favourable, you could potentially leverage a significant advantage.

**Filters:**

- Data Quality = 100
- Ranked In Top 4 of race
- Year 2023.

***Important note:**

- Past performance is not an indicator for future performance.
- Any runner that meets this shortlist, we highly recommend conducting additional form analysis.

# JOCKEY/TRAINER REVIEW PROCESS

At the end of each month, we identify the top jockeys and trainers based on our detailed data analysis. These are individuals who have consistently demonstrated exceptional strike rate performance and contributed to profitable outcomes when ranked high on our statfreaks ratings. When a rider/trainer or combo has dropped out of market performance for more than 3 months rolling, they are removed from the tracking table.

Every **month**, we'll revisit these top performers in a dedicated edition of our newsletter. We will re-analyze their performance during this period, looking at their wins, losses, and overall profitability using the Betfair Starting Price. This approach will help us understand the longer-term patterns and consistency of these high achievers, providing you with a more holistic view of their performance. We believe this system can provide an extra edge over the market.

The following sections will present the completed analysis for the past 3 months rolling and provide an update on the tracking table system.

# JOCKEY'S (AUD)

The below table display's riders that had a win strike rate equal or above 33% when ranked 1 (Top in race) on our Statfreaks AI ratings and returned a positive profit on turnover over the past 3-months rolling.

Rides below 33% have been tracked from the previous month and we will monitor as required, if they don't pick up in strike rate and profitability performance over the next couple of months, they will be removed from the tracking table.

Racing Analytics Expert Form Analyser

# OUR METHODOLGY

**Harnessing the Power of the Racing Analytics Expert Form Database Platform.**

Our examination of horse racing data is anchored by the Racing Analytics - Expert Form platform, the Statfreaks plugin, and Betfair's rich historical data.

The Racing Analytics platform is our primary tool for investigating the vast array of data from various races. With it, we scrutinize the performance histories of horses, jockeys, and trainers, and dissect diverse variables.

Statfreaks amplifies our analysis, providing advanced statistical capabilities for pattern recognition and predictive modeling. Betfair's historical data offers a broad base for our exploration, contributing a wealth of information.

For those keen on conducting personal research, the platform is accessible via subscription at www.rapro.com.au. Here, you can engage directly with the same data environment we utilize for our analysis and discover your own unique insights.
