SUMMARY

Welcome to the February 2024 edition of the Statfreaks Newsletter. In this issue, we continue to deliver the most insightful, data-driven analysis in horse and greyhound racing.

After a brief hiatus in January 2024 due to the holiday season, this newsletter offers insights from both December 2023 and January 2024. Our primary focus is on historically profitable horse racing models centred around our Statfreaks **+6.1** rated runners. We analyse five models, providing key insights and recommendations.

We explore high-value rated runners over the last two months for both horses and greyhounds, identifying top performances in our data that yielded exceptionally good returns on the Betfair Win Starting price. In the greyhound sector, we've updated the list of top-performing runners for 2023 and introduced the 2024 runners.

Additionally, our Jockey, Trainer, and Combo Statfreaks tracking tables have been updated (both on the website and virtual table) and are featured in this month's newsletter. We hope you enjoy this latest issue, filled with exciting insights and actionable models. We're confident you'll find the read as enjoyable as we found compiling it.

Happy Racing!

LAY BETTING – BETFAIR

Welcome to lay betting, a unique betting strategy on Betfair. Unlike traditional betting where you bet on an outcome to happen, lay betting allows you to bet against an outcome.

In horse racing, when you lay a horse, you're betting it won't win. If any other horse wins, your bet wins. If the horse you laid wins, your bet loses. Essentially, you're acting as the bookmaker.

The odds in lay betting are reverse of traditional betting. For example, if you lay a horse at odds of 4.0 with a $10 stake, you'll win $10 if the horse loses. However, if the horse wins, you'll have to pay out $30. The liability (the amount you could lose) in lay betting can often be more than the amount you stand to win.

In essence, lay betting allows you to profit not only from picking winners, but also from picking losers. It's a valuable tool that, once mastered, can significantly broaden your betting strategy.

HISTORICAL PROFITABLE MODELS

5 X PROFITABLE HISTORICAL MODELS - HORSES.

In this edition of our monthly newsletter, we spotlight our top-performing Statfreaks runners with a rating of +6.1.

Over the years, these runners have consistently outperformed the market in various aspects, and we're excited to share several key models related to this rating. These models serve as a valuable shortlist, offering significant benefits to your investment portfolio.

We begin by examining +6.1 rated runners on good tracks. Next, we delve into the performance of these runners in historical contexts, considering factors such as weight ranking, changes in distance from their last start, jockey rankings, and changes in track class from their last race.

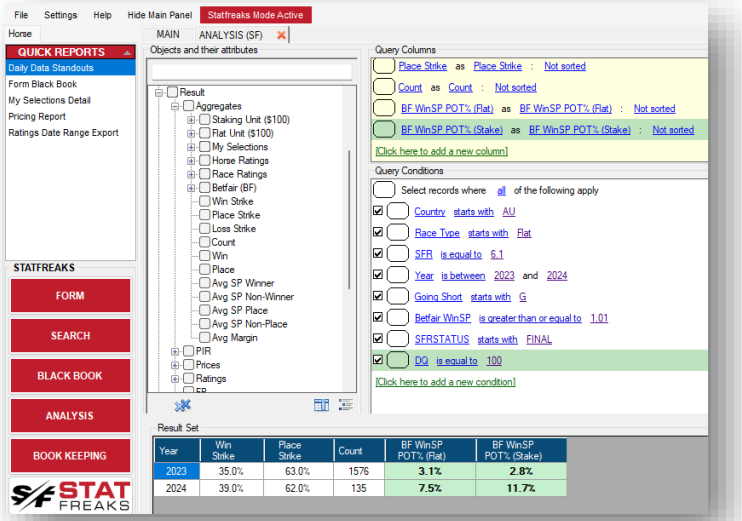
As we present the results from each model, we highlight and analyse clear, impactful insights, especially in relation to market price movements and provide recommendations on how to effectively utilize each models.

***Important note:**

- the Betfair Profit on Turnover “POT%” and Profit & Loss “P/L” calculation includes commissions deducted.
- Analysis only factors in rides that had a valid betfair SP
- Past performance is not an indicator for future performance.
- Further insights can be accessed via www.rapro.com.au database platform.

+6.1 - STATFREAKS RATED – MODEL 1

First model up is a simple filter on our Top Rated **+6.1** Rated runners, on the Betfair Win SP (Commission factored in). Targeted on "Good" Tracks, Flat Races only with Data Quality equal to 100%. Races in FINAL status mode (Rating published after 10.30AM Melbourne time)



Following This Model/Recommendation:

Shortlist the **+6.1** runners and further performing form analysis, factor in with live data such as mounting yard analysis can further improve the strike rate and value.

Data Indicates that most of these runners shorten in price, so possible taking an early price on the exchange may also further provide value.

SP Op-Cls Mvt-Ind	Win Strike	Place Strike	Count	BF WinSP POT% (Flat)	BF WinSP POT% (Stake)
DRIFT	25.0%	53.0%	554	-2.9%	**1.2%**
HOLD	34.0%	71.0%	76	-14.3%	-14.0%
SHORT	41.0%	67.0%	1081	**7.9%**	**5.5%**

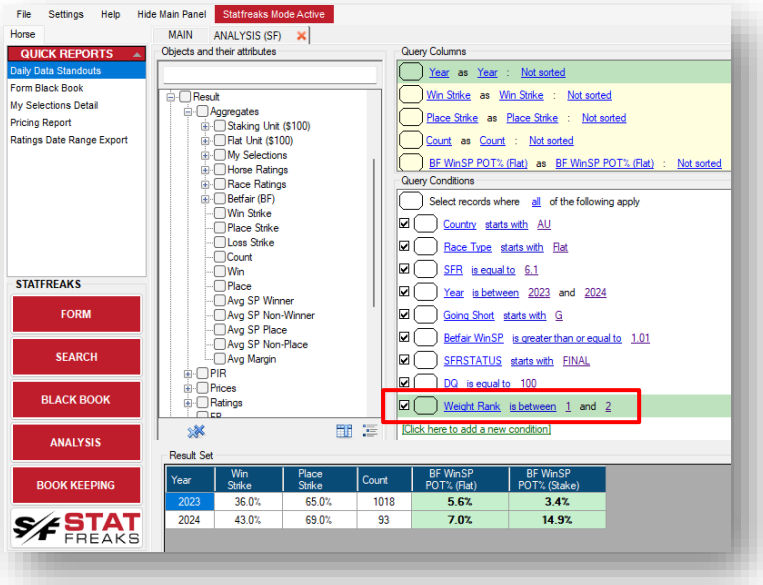
+6.1, WEIGHT RANK - STATFREAKS RATED – MODEL 2

Drilling Down further from our first model, we cross reference it against the rank of horses carrying weight in a race, where the Top weighted horses equals 1, 2nd Top weighed equals 2, etc. Good Tracks.



Following This Model/Recommendation:

Shortlist the **+6.1** runners, then check the horse's weight against all other horse's weights in a race. If it's carrying the Top weight, or 2nd Top Weight then consider shortlisting and conducting further analysis.

Different from model 1, with the weight rank filter value can be found with runners that drift in price. Note, that shorting horses still carrying a higher strike rate and historical positive return.

SP Op-Cls Mvt-Ind	Win Strike	Place Strike	Count	BF WinSP POT% (Flat)	BF WinSP POT% (Stake)
DRIFT	26.0%	53.0%	378	**3.4%**	**6.3%**

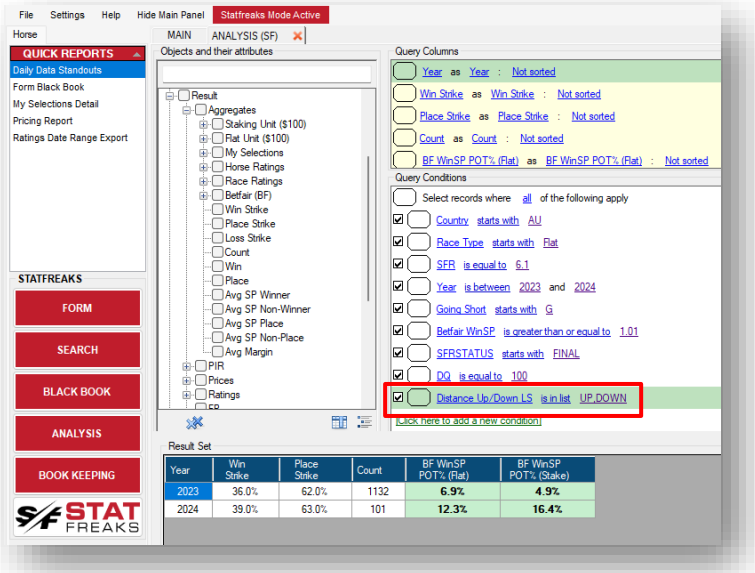
+6.1, UP/DOWN DISTANCE - STATFREAKS RATED – MODEL 3

This model filters our +6.1 runners on good track with horses that are “UP or DOWN” in distance from there last start. Good Tracks.



Following This Model/Recommendation:

Shortlist the **+6.1** runners, then isolate the ones that are **UP** or **DOWN** in trip from there last start.

Excluding the ones that are “EQUAL” in distance as historically there does not seem to be value in the price available, despite the win strike rate remaining consistent against UP and DOWN.

It's important to further consider live market intel such as mounting yard and any other key factors on the day.

Distance Up/Down LS	Win Strike	Place Strike	Count	BF WinSP POT% (Flat)	BF WinSP POT% (Stake)

Following This Model/Recommendation:

Shortlist the **+6.1** runners, isolating the ones with our Jockey Rank between 1 and 4.

This model is very clear, most of these shortlisted runners shorten in price. Therefore, finding them early may be advantageous, as historically there is still strong value in the market with the Win Price available.
