LAY BETTING – BETFAIR

Welcome to lay betting, a unique betting strategy on Betfair. Unlike traditional betting where you bet on an outcome to happen, lay betting allows you to bet against an outcome.

In horse racing, when you lay a horse, you're betting it won't win. If any other horse wins, your bet wins. If the horse you laid wins, your bet loses. Essentially, you're acting as the bookmaker.

The odds in lay betting are reverse of traditional betting. For example, if you lay a horse at odds of 4.0 with a \$10 stake, you'll win \$10 if the horse loses. However, if the horse wins, you'll have to pay out \$30. The liability (the amount you could lose) in lay betting can often be more than the amount you stand to win.

In essence, lay betting is a valuable tool that, once mastered, can significantly broaden your betting strategy.

HISTORICAL PROFITABLE MODELS

LAY BETTING - MODEL AT IPSWICH “JUNE 2023 MODEL”

Initially featured in our 2023 Statfreaks newsletter, we revisit this model in April's 2024 edition, showcasing its continued success in lay betting on Betfair through staking or flat betting at the SP. Kicking off 2024 with a promising 11.3% profit on turnover for flat lay betting, despite a 1% increase in win strike rate since 2023, the model demonstrates significant potential. Should it maintain its current performance trajectory throughout the year, it distinguishes itself as an exceptional model to consider following closely.

LAY BETTING - MODEL AT ASCOT

Utilizing the Ipswich model as a benchmark, we conducted further analysis using identical filtering criteria to identify additional tracks with historical profitability. The Ascot track in Western Australia emerged as a noteworthy candidate, demonstrating significant historical profitability and meriting continued observation for its strong performance.

LAY BETTING - MODEL AT ROSEHILL

Further building on the Ipswich model and after examining various other venues, our third analysis highlighted Rosehill Gardens in New South Wales. Like the previous models, Rosehill Gardens showcased considerable historical profitability, employing the same model settings alongside Betfair lay Starting Prices. This discovery confirms its potential, making it another track worth keeping under surveillance for its impressive performance.

LAY BETTING - MODEL SPRINT RACES

Concentrating on sprint-type races, we have identified specific filters where runners risk being positioned too far back during the settling phase, potentially leaving them insufficient time to close the gap and secure a win. By profiling these runners and conducting retrospective analysis, we've uncovered profitability through our predicted settle position variable (SETPOS). The results are detailed below

LAY BETTING - MODEL SPRINT RACES – V2

Keeping focus on the sprint-type races, we have analysed another model version that incorporates the barrier rating (BR) and (PR2), the predicted position of the horse at the 200m mark. This model variation, which also applies filters exclusively for races on "Good" tracks, allows for a refined analysis of runners at risk of being too far back during the settling phase, potentially lacking the time to catch up for a win. By analysing these specific conditions and profiling runners accordingly, our updated approach has identified profitable opportunities through our predicted settle position variable (SETPOS). Below are the updated results.

POSITION IN RUN LEADING TRACKS

POSITION IN RUN- TOP TRACKS LEADING

Featured in this slide is an examination of win strike rates across various tracks for horse racing in Australia with a win strike rate over equal or greater than 30% since 2022 to current and a focus on the performance of horses leading at the 800-meter point. This information is invaluable for anyone engaged in in-play betting on betfair, as it sheds light on the pivotal role of early leads in race results. By incorporating these findings into your betting approach, you stand to gain a strategic advantage based on proven trends and patterns from past races

Track Name	Win Strike ▾	Place Strike
Gatton	37.0%	62.0%
Fannie Bay	36.0%	59.0%
Moonee Valley	35.0%	58.0%
Albany	34.0%	59.0%
Ipswich	33.0%	60.0%
Rockhampton	33.0%	56.0%
Cranbourne	32.0%	60.0%
Tamworth	32.0%	58.0%
Gold Coast Poly	31.0%	64.0%
Kensington	31.0%	54.0%
Wyong	31.0%	55.0%
Kalgoorlie	30.0%	57.0%
Pioneer Park	30.0%	53.0%

Betfair In-Play Scenario

Let's take Gatton track as an example. With a win strike rate of 37%, this implies horses leading at the 800m mark win approximately 37 out of every 100 races. Converting this into betting odds gives us about \$2.70 (1 divided by 0.37). If you can find in-play odds greater than \$2.70 for a horse leading at Gatton, you've identified value. This edge over the market can be a guide to make smarter in-play decisions with potentially higher returns.
