LAY BETTING – BETFAIR

Welcome to lay betting, a unique betting strategy on Betfair. Unlike traditional betting where you bet on an outcome to happen, lay betting allows you to bet against an outcome.

In horse racing, when you lay a horse, you're betting it won't win. If any other horse wins, your bet wins. If the horse you laid wins, your bet loses. Essentially, you're acting as the bookmaker.

The odds in lay betting are reverse of traditional betting. For example, if you lay a horse at odds of 4.0 with a \$10 stake, you'll win \$10 if the horse loses. However, if the horse wins, you'll have to pay out \$30. The liability (the amount you could lose) in lay betting can often be more than the amount you stand to win.

In essence, lay betting is a valuable tool that, once mastered, can significantly broaden your betting strategy.

BETFAIR STARTING PRICE (BSP) – THE VALUE WITH STATFREAKS

Our analysis showcases the distinct advantage and value of using Statfreaks ratings coupled with the Betfair Starting Price (BSP).

Over the rolling year 2023/2024 on Metro Tracks across NSW/QLD/VIC on Good tracks, we observed a marked variance in Profit On Turnover (POT%) when comparing the average fixed win price to BSP, **with all commissions factored in** and isolating the Statfreaks 6.1 rated runners.

The results demonstrate a clear financial benefit, with BSP consistently outperforming traditional fixed odds, highlighting the superior value utilising the BSP.

- Place Strike Rate:** 50.0%
- Count:** 22 rides

Thomas Stockdale ranks second with strong win and place rates and the best overall profitability, particularly on Betfair. His returns are exceptionally high, particularly in win bets on Betfair, making him a highly profitable rider to bet on in these races.

Ben Allen:

- Win Strike Rate:** 31.0%
- Place Strike Rate:** 54.0%
- Count:** 13 rides

Ben Allen also demonstrates impressive strike rates and solid profitability across both betting platforms. Like the others, his Betfair returns outshine those from the average fixed SP, again emphasizing the value of using Betfair for potentially greater returns.

Conclusion:

This analysis confirms a trend where Betfair often provides more favourable returns than average fixed SP, as seen with all three riders. Each rider's significant positive returns on Betfair, especially in win bets, suggest that this platform might offer better odds or reduced margins compared to traditional bookmakers. This insight could be crucial for bettors looking to maximize their returns by choosing the right platform and bets based on rider performance data at specific tracks

Craig Williams:

- Win Strike Rate: 30.0%
- Place Strike Rate: 48.0%
- Count: 27 rides

Craig Williams shows a consistent win and place strike rate with average negative returns on both average fixed SP and Betsfair. However, the negative impact is slightly less on Betsfair, indicating better returns from this platform compared to fixed odds. It's Clear that many of Craigs rides have been **over bet** and not much value being found with the jump/closing price.

Blake Shinn:

- Win Strike Rate: 30.0%
- Place Strike Rate: 61.0%
- Count: 44 rides

Blake Shinn, with the highest place strike rate among the top riders, also exhibits less negative profitability on Betsfair compared to the average fixed SP, particularly in the place betting market, showcasing the advantage of betting through Betsfair for potentially mitigating losses.

Daniel Stackhouse:

- Win Strike Rate: 27.0%
- Place Strike Rate: 64.0%
- Count: 22 rides

Daniel Stackhouse stands out for having a good number of rides and best performance in terms of profitability, especially on Betsfair. His returns from Betsfair are markedly better, highlighting a significantly reduced loss in betting returns, especially in place bets.

Conclusion:

Across all three top riders, Betsfair returns are notably higher, compared to the average fixed SP. This pattern suggests that Betsfair might offer more favourable odds or better opportunities, which can be particularly beneficial for individuals seeking more efficient betting strategies. This demonstrates the potential value in using Betsfair as a betting platform for following top riders, ranked within our Top 4 at specific tracks.

Jordan Childs:

- **Win Strike Rate:** 32.0%
- **Place Strike Rate:** 58.0%
- **Count:** 31 rides

Jordan Childs tops the list with the highest win strike rate. He demonstrates solid profitability in both win and place markets, with notable returns in the win category. His consistent performance across a significant number of rides suggests a reliable betting option.

Ms Jaylah Kennedy:

- **Win Strike Rate:** 30.0%
- **Place Strike Rate:** 40.0%
- **Count:** 10 rides

Ms Jaylah Kennedy stands out with a remarkable win POT% among her limited number of rides, showing exceptional performance in the win market. However, her place returns are less favourable, which indicates a strong but somewhat inconsistent performance.

Carleen Hefel:

- **Win Strike Rate:** 29.0%
- **Place Strike Rate:** 71.0%
- **Count:** 21 rides

Carleen Hefel shows excellent performance in both win and place markets, with especially high returns in the place category. Her higher place strike rate and profitability suggest she's a very safe bet for place stakes.

Conclusion:

These riders demonstrate robust performances in their respective markets, with notable profitability on average fixed SP. However, when considering the overall impact of Betfair in the conclusion, the data across the board suggests that returns on Betfair are generally higher, which might indicate that for investors looking to maximize their earnings, placing bets through Betfair could be more advantageous. This is particularly evident with riders like Wirremu Pinn and Luke Nolen, who exhibit exceptionally high Betfair returns, highlighting its potential for higher profitability.

Wirremu Pinn::

- Win Strike Rate:** 31.0%
- Place Strike Rate:** 69.0%
- Count:** 16 rides

Wirremu Pinn showcases an exceptional win profitability with a POT of 101.9%, making him the top performer in terms of win bets. His high place strike rate also contributes to a solid return in place bets, emphasizing his reliability and effectiveness as a top choice for bettors.

Jamie Kah:

- Win Strike Rate:** 29.0%
- Place Strike Rate:** 49.0%
- Count:** 35 rides

Jamie Kah, while having a decent win strike rate, shows negative profitability in both win and place bets on average fixed SP. This suggests that while she is a frequent choice among bettors, her returns might not always align with the expectations based on strike rates alone.

Carleen Hefel:

- Win Strike Rate:** 25.0%
- Place Strike Rate:** 47.0%
- Count:** 21 rides

Ms Carleen Hefel stands out with impressive win profitability at 90.3%. Although her place returns are slightly negative, her strong win rate and high win profitability mark her as a valuable pick for win bets.

Conclusion:

The analysis of these top riders indicates a significant variance in performance and profitability. While some riders like Wirremu Pinn and Ms Carleen Hefel show high win profitability, others like Jamie Kah might not yield the expected returns despite a good strike rate. It's also noteworthy from the broader data that Betfair often provides higher returns, especially evident in Wirremu Pinn's Betfair WinSP of 114.6%, suggesting that for certain riders, Betfair could offer better value, aligning with higher profitability than fixed odds betting. This trend reinforces the advantage of using Betfair for potentially maximizing betting returns.

VIRTUAL TABLE – ADVANCED JOCKEY ANALYSIS

HORSE RACING:

Our research has consistently shown that the significance of jockeys in racing is often underestimated in the market.

Unlike most systems that focus predominantly on profiling horses, we emphasize the impact of the jockey. Traditional form guides and betting tools typically analyse races in a detailed, runner-by-runner format. However, our approach uses advanced tools and data analytics to offer a fresh perspective, especially in jockey challenge markets where finding a valuable jockey-horse combination is key.

Our Jockey Analysis data table simplifies this process by sorting jockeys based on win strike rates, helping users quickly spot potential winners.

★ Tips with using this virtual table

- Short list rides that have a strong SFR, e.g. 5.0+ and above
- Strong Win SR for their predicted settle, e.g. LEAD 30% or higher.
- Have an historical edge for that scenario.
- Check the form for the runner, ensure its ready for this race, and the price available is providing value. A 36% strike rate converts to \$2.7 (100/36), therefore if the market has it less than \$2.7 then the value may not be there.

RACING ANALYTICS— BATCH MODEL AUTOMATION

Welcome to the Racing Analytics "Batch Model Automation" feature. This enables the automatic execution, display, and recording of upcoming model runners, including their names and timestamps. It facilitates rapid identification of runners across various models, and as data accumulates, it allows for enhanced historical analysis of patterns and performance.

This feature alone will save you time and energy allowing you to focus more on form and analysis!
